EDUCATION

Carnegie Mellon University

B.S. in Business Administration (Additional Major in Computer Science)

Pittsburgh, PA

August 2023 – May 2027

GPA: 3.66 / 4.00

Relevant Coursework: Finance, Accounting, Business Computing, Methods for Statistics and Data Science, Artificial Intelligence, Functional & Imperative Programming, Concepts of Mathematics, Matrices & Linear Transformations

PROFESSIONAL EXPERIENCE

Korea Investment & Securities Co., Ltd

Quantitative Research Analyst

Seoul, South Korea

April 2025 – June 2025

- Analyzed financial AI adoption using global survey data in Colab and estimated cost and time savings by use case
- Formulated department-level ROI and operational efficiency impact to evaluate business value across AI applications
- Led research and presentation on Korean real estate trends, 2025–26 asset-specific forecasts, and U.S. comparisons

Carnegie Mellon University School of Computer Science

Computer Systems Data Researcher

Pittsburgh, PA

May 2025 – June 2025

- Conducted large-scale behavioral analysis using R on 170,000+ exam data from 2016–2019 online assessments
- Identified time and revisit trends across ability tiers, uncovering nonlinear score-time patterns by difficulty
- Curated Welch's t-test and Cohen's d to identify optimal view-time threshold for meaningful interaction classification

Information System Security Lab

Research Intern

Seoul, South Korea

May 2024 – September 2024

- Reviewed AI security papers on large language models jailbreak methods and presented novel findings in seminars
- Contributed to a project on federated unlearning, by developing backdoor attack code with malicious unlearning
- Initiated a framework to categorize jailbreak prompts and generate a universal prompt, mitigating AI security threats

PROJECT EXPERIENCE

Business Hackathon Third Place Winner

Pittsburgh, PA

- Collaborated with a team to develop financial models for B+ Impact Fund, an impact investing organization
- Advocated strategic recommendations supporting entrepreneurs in economically disadvantaged areas in Pittsburgh
- Analyzed the viability of digital or physical collateral to maximize social impact as well as financial sustainability

Portfolio Site

Pittsburgh, PA

- Developed a fully interactive and dynamic portfolio website from scratch using JavaScript, HTML, and CSS
- Operated testing across browsers and devices to ensure mobile responsiveness and cross-browser compatibility

Pomoplanner Project

Pittsburgh, PA

- Initiated a full-stack application using Python that generates study schedules with a customizable Pomodoro timer
- Adapted personalized study plan based on user goals, with a study hours tracker report page and a leaderboard page
- Implemented a calendar that organizes tasks by importance by manual input or complex A.I. backtracking algorithm

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Alpha Kappa Psi Professional Business Fraternity

Class President, Historian

Pittsburgh, PA

August 2024 – Present

- Fundraised \$2,600 in 2 weeks through budget construction, campus outreach, and coordination of a 19-member team
- Led Marketing Committee discussions to develop Fall 2025 recruitment strategies and produce promotional materials

Business Technology Group

Product Studio Analyst, Technical Product Manager

Pittsburgh, PA

August 2023 – May 2024

- Launched the student-centric 'Open Gym' project, which uses a Bluetooth scanner to track gym availability, liaising effectively with Athletic administrators and conducting comprehensive market research to enhance user experiences
- Lead team of engineers and analysts on implementing backend services for Bluetooth scan logging using C and Java

American Marketing Association

Campus Marketing Manager

Pittsburgh, PA

August 2023 - March 2024

- Developed social media strategies and outreach materials for the campus Spring Carnival, boosting event visibility
- Conducted a consulting presentation for the carnival committee, providing a SWOT analysis and strategic solutions
